

Tri Huynh

PERSONAL DETAIL

Full name: Huynh Minh Tri

84A/1A Tran Huu Trang street, Phu Nhuan district, Ho Chi Minh city

Phone: 0949708027

Email: hmtri.it@gmail.com – Skype: hmtri027@gmail.com

DOB: 29/12/1992

Nationality: Viet Nam

SUMMARY

I can work with Android, Flutter (include UI, UX, template, codebase, network communication,...), build a server with common functions to communicate between backend and client. I have experienced on Linux, detected the problem worked well at Android Studio, Git. I love to research, supporting team members, training new members for Android Java. I can work in a team or independently with excellent technical abilities offering 2+ years of related experience.

Besides, learn new languages or platforms quickly with a positive attitude I can work with all steps in a project from the initial setup to deployment.

STRENGTHS

- Good problem-solving abilities
- Multitasking
- Logical thinking and creative
- Familiar with IOT

EXPERIENCE

| | |
|---------|---------------------|
| Project | R&D |
| Name | An platform for IoT |

| | |
|-------------|---|
| Description | Build a Mobile apps platform base on Kaa platform to provide general, ready and easy to use feature which coverage almost IoT use case. |
| Technical | <ul style="list-style-type: none"> - Backend: Kaa platform, Spring, hibernate, mariadb, InfluxDB, docker, Kafka, Grafana - Mobile: <ul style="list-style-type: none"> + Use component: View, TextView, Button, RecyclerView, Custom Adapter, Shared Preferences, networking, + Restful API, Gson library, Okhttp3 library, MPAndroidChart library, Event Bus library. - CI/CD: Docker, Jenkins, App Center |
| Duration | 12/2017-now |
| Member | 3-4 members |
| Role | Develop |
| Project | R&D |
| | |
| Name | EbookStore- Ecommerce |
| Description | Build a Mobile apps platform for Ecommerce Basic: My Cart, Checkout via PayPal |
| Technical | <ul style="list-style-type: none"> - Backend: Node Js, MongoDB - Mobile: <ul style="list-style-type: none"> + Use component: View, TextView, Button, ImageView, RecyclerView, Custom Adapter, Shared Preferences, networking,... + Restful API, Gson library, Okhttp3 library + PayPal API - CI/CD: Deploy Heroku, App Center |
| Duration | 12/2018 - now |
| Member | 1 members |
| Role | Develop |

SKILLS

Programing language: Java Android, ReactNative, Flutter.

Backend: Java Springframework, Node Js, MySQL, Mogodb,

CI/CD: Docker, Jenkin,
Development: Git, Trello,
OS/tool: Strong with Ubuntu system

CERTIFICATIONS

| | |
|----------|---|
| Jul 2015 | CUSC Certificate Android Application Development. |
| Sep 2015 | CUSC Certificate Advance Android Application Development. |
| Sep 2015 | Certificate Vietnam MCU Design Contest 2015 (South Regional Final). |
| Dec 2015 | Certificate Vietnam MCU Design Contest 2015 (National Final). |

EDUCATION

- CanTho University 06/2012 - 6/2016
- Bachelor of Computer Engineering
Knowledge: Electronic Circuits, Object Oriented Programming, Operating Systems, Computer Networks, Microcontrollers, Internet of Things.
